

Dear Rich,

I'd like to thank you for all your help during my move from California to Montana! As you know, this was a major move for me both personally and professionally. You gave me a lot of good information about the Bitterroot Valley in order to help me make a decision to live and work here. I also appreciate your support during some of the more stressful moments of making a long distance real estate transaction.

In answer to your questions: Yes, I do feel I received good service from you. You kept me informed throughout the entire process, and that was much appreciated. You were also able to provide me with the names and phone numbers of folks who'd be able to help me when I moved into my new home. This has been a very valuable service for me, as I seem to have a lot of "projects" here!

I definitely will recommend your service to others. You can probably expect that occurrence soon, as I imagine when any of my family or friends come here to visit me "under the Big Sky", they'll likely want to live here, too!

Thanks again!
